## What is this product?

### TYPE

Citadel Value Fund SICAV is an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide to liquidate the Fund under certain circumstances. The Fund may be dissolved by a resolution of the shareholders adopted in the manner required for amendment of the Articles of Association.

### OBJECTIVES

The Fund seeks to preserve capital and realise superior long-term returns. It does this by following a value investing strategy in which the stocks of individual companies are sought out and selected on a case-by-case basis.

The goal is to identify shares which are deeply undervalued versus their estimated intrinsic value.

### Investment policy

The Fund invests worldwide (OECD countries) and will typically, but not necessarily always, hold the shares of between 20-40 companies.

The Fund will not invest in derivatives. It may temporarily borrow (a maximum of 10% of its net assets), but does not do so.

The Fund is actively managed without reference to a benchmark.

The reference currency of this Fund and the share class is expressed in EUR.

The investor may subscribe, convert and redeem shares twice monthly. The minimum initial subscription amount is EUR 1,000,000 and the minimum subsequent subscription amount is EUR 10,000.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The return of the product is determined by using the net asset value calculated by the Central Administration. This return depends mainly on the market value fluctuations of the underlying investments.

Dividend income of this share class is reinvested (accumulated).

### INTENDED RETAIL INVESTOR

The Fund is suitable for investors who are comfortable with and understand the risks of investing in the stock market and who have an investment horizon of at least three to five years. The Fund's strict and consistent application of the 'value' investment strategy makes it particularly suitable for long-term investors seeking capital preservation and appreciation.

### OTHER INFORMATION

The depositary is Quintet Private Bank (Europe) S.A..

The registrar and transfer agent is UI efa S.A. ("EFA").

Further information about the Fund (including the prospectus, other share classes, latest annual and semi-annual reports, latest NAVs) are available free of charge in English on [www.purecapital.eu](http://www.purecapital.eu) and on [www.citadelfund.com](http://www.citadelfund.com), or by making a written request to the registered office of the Product manufacturer.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 4 years.

The risk can be significantly different if you cash in at an early stage and you may get back less than invested.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

<b>Recommended holding period:</b>		<b>4 years</b>		
<b>Example investment:</b>		<b>EUR 10 000</b>		
		<b>If you exit after 1 year</b>	<b>If you exit after 4 years</b>	
<b>Scenarios</b>				
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>			
<b>Stress scenario</b>	<b>What you might get back after costs</b>	EUR 6 600	EUR 5 930	
	Average return each year	-34.0%	-12.2%	
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	EUR 7 990	EUR 8 580	This type of scenario occurred for an investment in the product between March 2016 and March 2020.
	Average return each year	-20.1%	-3.8%	
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	EUR 10 300	EUR 11 070	This type of scenario occurred for an investment in the product between April 2019 and April 2023.
	Average return each year	3.0%	2.6%	
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	EUR 14 050	EUR 16 660	This type of scenario occurred for an investment in the product between March 2020 and March 2024.
	Average return each year	40.5%	13.6%

## What happens if PURE CAPITAL S.A. is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Fund's assets are held with Quintet Private Bank (Europe) S.A..

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 4 years
<b>Total costs</b>	EUR 183	EUR 811
<b>Annual cost impact (*)</b>	1.8%	1.8%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.4% before costs and 2.6% after costs.
