What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of PCFS, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

The objective of the Sub-Fund is to maximize the return on the investment on the European small and midcaps equity markets.

The Sub-Fund will have a high level of diversification and may invest in all types of small and midcaps equities without any restrictions in terms of geographical zones and sectors. The allocation between all these European small and midcaps equities will reflect the micro and macro-economic analysis of the Investment Manager (Pure Capital S.A.).

Therefore:

- Under normal market circumstances, the Sub-Fund invests a clear majority of at least 55% of its total net assets in small and midcaps equity securities of companies domiciled in or carrying out the majority of their business activities in European countries. The Investment Manager may also choose to invest, in lesser extent, in equity securities of companies domiciled in or carrying out the majority of their business activities in
 - the United Kingdom;
 - Central and Eastern European countries like Poland, Czech Republic, Hungary, Russia and CIS countries (where CIS stands for Commonwealth of Independent States);
 - Northern Europe countries such as Sweden, Norway and Denmark;
 - Switzerland;
 - Mediterranean Basin countries like Turkey, Israel, Egypt and Morocco;
 - North America (United States of America and Canada). The exposure to North America is limited to a maximum of 15% of its total net assets.
- Under normal market circumstances, the Sub-Fund will maintain a clear majority, of at least 55% of the investments in EURO denominated currency securities.
- Although it is not part of the core strategy of the Sub-Fund, the Investment Manager of the Sub-Fund may, under exceptional market circumstances and for the sole purpose of protecting the portfolio value, invest up to 100% of the net assets in cash, cash equivalents, high investment grade government debt and high investment grade corporate bonds denominated in any OECD currencies.
- The Sub-Fund may not invest more than 10% of its net assets in units of other UCITS or other UCIs. In the case of fund investments, the target fund(s) might have different investment strategies or restrictions.
- The Sub-Fund may use futures or options (equities, interest rates, currencies, etc.) traded on regulated or Over-The-Counter (OTC) markets in order to generate exposure or hedge the portfolio. The interest rate and equity derivatives markets may only be used to generate leverage amounting to a maximum of 100% of the Sub-Fund's net assets.

The Sub-Fund is managed in a discretionary manner, but does not seek to replicate in any manner the performance of the index.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The Sub-Fund's assets are held with CACEIS Investor Services Bank S.A. and are segregated from the assets of other sub-funds of the PCFS. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

The return of the product is determined by using the net asset value calculated by the Central Administration. This return depends mainly on the market value fluctuations of the underlying investments.

Investments may be redeemed on a daily frequency on request.

Investors may switch between shareclasses or sub-funds of the Fund. Please see the prospectus for details.

This class is accumulative.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 5 years.

What are the risks and what could I get in return?

Risk indicator

 The risk indicator assumes you keep the product for 5 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:		5 years EUR 10 000		
		If you exit after 1 year	If you exit after 5 years	
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	EUR 6 070 -39.3%	EUR 2 000 -27.5%	
Unfavourable scenario	What you might get back after costs Average return each year	EUR 6 600 -34.0%	EUR 6 280 -8.9%	This type of scenario occurred for an investment in the proxy then the product between March 2015 and March 2020.
Moderate scenario	What you might get back after costs Average return each year	EUR 9 460 -5.4%	EUR 9 050 -2.0%	This type of scenario occurred for an investment in the proxy then the product between September 2015 and September 2020.
Favourable scenario	What you might get back after costs Average return each year	EUR 15 950 59.5%	EUR 12 370 4.4%	This type of scenario occurred for an investment in the proxy then the product between June 2016 and June 2021.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if PURE CAPITAL S.A. is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Sub-Fund's assets are held with CACEIS Investor Services Bank S.A. and are segregated from the assets of other sub-funds of the PCFS. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 5 years
Total costs	EUR 554	EUR 1 553
Annual cost impact (*)	5.5%	3.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 1.2% before costs and -2.0% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this investment.	Up to EUR 300
Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.01% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 201
Transaction costs	0.20% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 20
Incidental costs taken under specific conditions		
Performance fees	10% over hurdle of 8% with HWM of share Class RC, CCC and IC. The actual amount will vary depending on how well your investment performs. The aggregated cost estimation above includes the average over the last 5 years.	EUR 33

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 5 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.
