This PRIIP is authorised in Luxembourg.

PURE CAPITAL S.A. is authorised in Luxembourg and regulated by the CSSF.

This key information document is accurate as at 4th September 2023.

What is this product?

TYPE OF PRODUCT

The product is a Sub-Fund of PCFS, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

OBJECTIVES

The objective of the Sub-Fund is to maximize the return on investment, independently from the performance of the markets, through a diversified portfolio principally made of UCITS and ETF's.

Underlying UCITS will mainly focus on flexible global asset allocation strategies. The Investment Manager (Pure Capital S.A.) will allocate the asset of the Sub-Funds to a diversified portfolios of such investment funds. The Investment Manager (Pure Capital S.A.) will use ETF's to give exposure to specific investment themes (i.e. specific segment of the bond markets, specific geographic focus,...). Therefore, the Sub-Fund will have a high level of diversification and may invest in all asset classes eligible in the sense of the law of 17 December 2010, including categories of UCITS or other UCIs (equities, bonds, cash and related eligible instruments like ETF).

The allocation between all these asset classes will reflect the macroeconomic analysis of the Investment Manager (Pure Capital S.A.). Thus, the allocation of the portfolio between the different asset classes and categories of UCITS or other UCIs but also the weighting of geographical zones, sectors, ratings and maturities may vary substantially with the time according to the manager's expectations.

The Sub-Fund is actively managed and is not managed in reference to a benchmark.

The investment policy presents investment limits as follows:

- The Sub-Fund will be exposed, up to a maximum of 60% of the net assets of the Sub-Fund, directly or indirectly to equities and other securities giving or capable of giving, directly or indirectly, access to capital or voting rights, traded on eurozone and/or international markets, potentially including a significant portion of the investments in the emerging countries.
- The Sub-Fund will be invested, up to a maximum of 60% of the net assets of the Sub-Fund, directly or indirectly in debt securities, i.e. fixed rate bonds, transferable debt securities, treasury bills, variable rate bonds, convertible bonds and inflation-linked bonds, potentially including a significant portion of investments in the emerging countries. The Investment Manager of the Sub-Fund may not invest more than 15% in contingent convertible bonds and more generally not more than 40% in contingent convertible bonds and other hybrid bonds either in financial or non financial sectors.
- The Sub-Fund may also invest in eligible instrument in order to capture trends in the commodity market. The Sub-Fund may invest up to 10% of the net assets into eligible instrument which underlying exposure is related to the commodity markets. This will be implemented exclusively through eligible exchange traded commodity securities (ETC), provided that they qualify as transferable securities according to article 41(1) a – d) of the Law of 2010, to article 2 of the Règlement Grand-Ducal of 8 February 2008 and to point 17 of CESR's recommendations CESR/07-044b ; these products shall not result in physical delivery of the underlying commodities. These eligible exchange traded commodities securities are structured like a zero coupon note tracking a commodity index. No embedded derivatives should be linked to that note.
- The Sub-Fund may also invest in eligible instrument in order to capture trends in the real estate market. The Sub-Fund may invest up to 20% of the net assets into eligible instrument which underlying exposure is related to the real estate markets. This will be implemented exclusively through eligible exchange traded real estate securities or UCITS specialised in Real Estate Investment Trust.
- The Sub-Fund may invest up to 100% of its net assets in shares or units of UCITS or other UCIs. In the case of fund investments, the target fund(s) might have different investment strategies or restrictions.
- The Sub-Fund may use futures or options (equities, interest rates, currencies, etc.) traded on regulated or Over-The-Counter (OTC) markets in order to generate exposure or hedge the portfolio. The interest rate and equity derivatives markets may only be used to generate leverage amounting to a maximum of 100% of the Sub-Fund's net assets.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The Sub-Fund's assets are held with CACEIS Investor Services Bank S.A. and are segregated from the assets of other sub-funds of the PCFS. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

The return of the product is determined by using the net asset value calculated by the Central Administration. This return depends mainly on the market value fluctuations of the underlying investments.

Investments may be redeemed on a daily frequency on request.

Investors may switch between shareclasses or sub-funds of the Fund. Please see the prospectus for details.

This class is accumulative.

INTENDED RETAIL INVESTORS

The product is suitable for retail investors with limited knowledge of the underlying financial instruments and no financial industry experience. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and for receiving regular income and who wish to hold their investment over 3 years.

OTHER INFORMATION

The depositary is CACEIS Investor Services Bank S.A.

The registrar and transfer agent is CACEIS Investor Services Bank S.A.

Further information about the Fund (including the prospectus, other classes, latest annual and semi-annual reports, latest NAVs) are available free of charge in English on www.purecapital.eu or by making a written request to the registered office of the product manufacturer.

This key information document describes the named Sub-Fund; however, the prospectus and the periodic reports are prepared for all the sub-funds of the Fund.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

Recommended holding period: Example investment:	3 years EUR 10 000			
	If you exit after 1 year	If you exit after 3 years		
Scenarios				
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.			
Stress scenario	What you might get back after costs Average return each year	EUR 7 790 -22.1%	EUR 5 700 -17.1%	
Unfavourable scenario	What you might get back after costs Average return each year	EUR 8 790 -12.1%	EUR 8 790 -4.2%	This type of scenario occurred for an investment in the product between December 2021 and December 2022.
Moderate scenario	What you might get back after costs Average return each year	EUR 10 040 0.4%	EUR 10 670 2.2%	This type of scenario occurred for an investment in the proxy then the product between August 2015 and August 2018.
Favourable scenario	What you might get back after costs Average return each year	EUR 11 600 16.0%	EUR 11 970 6.2%	This type of scenario occurred for an investment in the proxy then the product between April 2014 and April 2017.

The stress scenario shows what you might get back in extreme market circumstances.

What happens if PURE CAPITAL S.A. is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Sub-Fund's assets are held with CACEIS Investor Services Bank S.A. and are segregated from the assets of other sub-funds of the PCFS. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- EUR 10 000 is invested.

Investment of EUR 10 000	If you exit after 1 year	If you exit after 3 years
Total costs	EUR 513	EUR 1 032
Annual cost impact (*)	5.1%	3.2%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 5.4% before costs and 2.2% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Up to 3.00% of the amount you pay in when entering this investment.	Up to EUR 300
Exit costs	We do not charge an exit fee for this product.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.09% of the value of your investment per year. This is an estimate based on actual costs over the last year.	EUR 209
Transaction costs	0.04% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 4
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee.	EUR 0

How long should I hold it and can I take my money out early?

Recommended Holding Period (RHP): 3 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.

Shareholders may place redemption orders every Bank Business Day for all or part of their shareholdings. Any required documentation is received prior to 10.00 a.m., Luxembourg time, on the Bank Business Day in Luxembourg preceding the applicable valuation day, the shares will be redeemed based on the Net Asset Value per share applicable on the next valuation day. If received thereafter, the application will be deferred to the following valuation day.
