## What is this product?

### TYPE OF PRODUCT

The product is a sub-fund of the Fund, an Undertaking for Collective Investment in Transferable Securities (UCITS) incorporated as a variable capital investment company (SICAV) under the laws of Luxembourg.

### TERM

The Fund is established for an unlimited duration. However the Board of Directors of the Fund may decide to close the Fund under certain circumstances.

### OBJECTIVES

The objective of the Sub-Fund is to maximize the return on the investment on the international debt markets. The core strategy of the Sub-Fund is to invest in a diversified portfolio of debt securities. There is no intention to invest directly neither in equities nor in other asset classes than in the international debt markets. However, the Investment Manager (L.V. Continuum & Co. Limited) may invest in all asset classes and categories of UCITS or other Undertakings for Collective Investments (UCIs) in certain circumstances and within certain limits described hereunder. The allocation between all these asset classes will reflect the micro and macroeconomic analysis of the Investment Manager. Thus, the allocation of the portfolio between the different asset classes and categories of UCITS or other UCIs but also the weighting of geographical zones, sectors, ratings and maturities may vary substantially with the time according to the manager's expectations. The Sub-Fund currency will be USD.

**Equity Securities:** There is no intention to invest in equities. However and although it is not part of the core strategy of the Sub-Fund, the Investment Manager of the Sub-Fund may invest up to 10% in equities and other securities giving or capable of giving, directly or indirectly, access to capital or voting rights, traded on international markets.

**Debt securities:** The Sub-Fund will be invested, without any restriction, to the full extent and within the limits permitted by the 2010 Law, directly or indirectly in debt securities, i.e. fixed rate bonds, transferable debt securities, treasury bills, variable rate bonds, convertible bonds and inflation-linked bonds, including a variable portion of investments in the emerging countries. The intention of the Investment Manager is to invest in global international fixed income market and mainly in developed markets. However, he may invest an important part of the portfolio in Emerging bonds Markets in certain circumstances without any limit. He may also invest an important part of the portfolio in high yield holdings in certain circumstances, without any limit of exposure. High yield holdings exposure will be of high quality and high market capitalisation. The Sub-Fund may be invested in contingent convertible bonds and in other hybrid bonds either in financial or non financial sectors. The Investment Manager of the Sub-Fund may not invest more than 20% in contingent convertible bonds and other hybrid bonds either in financial or non financial sectors.

**Market:** The Sub-Fund may invest an important proportion of its assets in China market. It will do so via Bond Connect and will invest exclusively in offshore market.

**Commodities:** The Sub-Fund may also invest in eligible instrument in order to capture trends in the commodity market. The Sub-Fund may invest up to 5% of the net assets into eligible instrument whose underlying exposure is related to the commodity markets. This will be implemented exclusively through eligible exchange traded commodity securities. These eligible exchange traded commodities securities are structured like a zero coupon note tracking a commodity index. No physical delivery must be considered. No embedded derivatives should be linked to that note.

**Currencies:** The Sub-Fund may hold cash on an ancillary basis up to 20% of its net assets. This limit can be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

**Investment Funds:** The Sub-Fund may invest up to 10% of its net assets in shares or units of UCITS or other UCIs. In the case of fund investments, the target fund(s) might have different investment strategies or restrictions.

The Sub-Fund integrates sustainability risks into its investment decisions and considers environmental or social within the meaning of the SFDR in its investment decisions. The Sub-Fund promotes environmental or social characteristics and will not make any sustainable investments. However, the Sub-Fund does not have as its objective sustainable investment. Therefore, the Sub-Fund is classified as falling within the scope of Article 8 of the SFDR.

The Sub-Fund is actively managed and is not managed in reference to a benchmark.

The risk profile of the Sub-Fund is suitable for an investment horizon of over 3 (three) years.

The recommended holding period of this product is determined to allow sufficient time for this product to reach its objectives and avoiding short term market fluctuations.

The Sub-Fund's assets are held with Caceis Bank, Luxembourg Branch and are segregated from the assets of other sub-funds of the Fund. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

The return of the product is determined by using the net asset value calculated by the Central Administration. This return depends mainly on the market value fluctuations of the underlying investments.

Investments may be redeemed on a daily frequency on request.

Investors may switch between shareclasses or sub-funds of the Fund. Please see the prospectus for details.

This class is distributive.

## INTENDED RETAIL INVESTORS

The Sub-Fund is available to all investors who want to participate in the opportunities offered by the international debt markets and are aware that the gearing (or leverage) of investments made in derivatives and the volatility of the prices of derivatives increases the risk of investments made in the shares of the Sub-Fund to a higher level than in the case of traditional funds investments. The product is compatible with investors who may bear capital losses and who do not need capital guarantee. The product is compatible with clients looking for growing their capital and who wish to hold their investment over 3 years.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 3 years.

The risk can be significantly different if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because the Fund is not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level. Poor market conditions are unlikely to impact the Fund's capacity to pay you.

**Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.**

Please refer to the prospectus for more information on the specific and material risks relevant to the Fund not included in the summary risk indicators.

This Fund does not include any protection from future market performance, so you could lose some or all of your investment. If the Fund is not able to pay you what is owed, you could lose your entire investment.

### Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable proxy over the last 10 years. Markets could develop very differently in the future.

## What happens if PURE CAPITAL S.A. is unable to pay out?

There is no guarantee in place against the default of the Fund and you could lose your capital if this happens.

The Sub-Fund's assets are held with Caceis Bank, Luxembourg Branch and are segregated from the assets of other sub-funds of the PCFS. The assets of the Sub-Fund cannot be used to pay the debts of other sub-funds.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- USD 10 000 is invested.

Investment of USD 10 000	If you exit after 1 year	If you exit after 3 years
Total costs	USD 467	USD 1 414
Annual cost impact (*)	4.7%	4.7%

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.8% before costs and -1.9% after costs.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Entry costs are currently 0.00% and are allowed to increase up to 3.00%.	USD 0
Exit costs	We do not charge an exit fee for this product.	USD 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.65% of the value of your investment per year. This is an estimate based on actual costs over the last year.	USD 265
Transaction costs	2.02% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	USD 202
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee.	USD 0

## How long should I hold it and can I take my money out early?

### Recommended Holding Period (RHP): 3 years.

The RHP was chosen to provide a consistent return less dependent on market fluctuations.
