You are advised to read it so you can make an informed decision about whether to invest.

## PCFS - L.V. CONTINUUM & CO. LIMITED GLOBAL FIXED INCOME OPPORTUNITIES FUND CLASS MC USD (ISIN: LU2429574663)

**Management Company: PURE CAPITAL S.A.**  
**Investment Manager: L.V. Continuum & Co. Limited**

### Objectives and Investment Policy

The objective of the sub-fund is to maximize the return on the investment on the international debt markets. The core strategy of the sub-fund is to invest in a diversified portfolio of debt securities. There is no intention to invest directly neither in equities nor in other asset classes than in the international debt markets. However, the Investment Manager (L.V. Continuum & Co. Limited) may invest in all asset classes and categories of UCITS or other UCIs in certain circumstances and within certain limits described hereunder. The allocation between all these asset classes will reflect the micro and macroeconomic analysis of the Investment Manager. Thus, the allocation of the portfolio between the different asset classes and categories of UCITS or other UCIs but also the weighting of geographical zones, sectors, ratings and maturities may vary substantially with the time according to the manager's expectations. The sub-fund currency will be USD.

**Equity Securities:** There is no intention to invest in equities. However and although it is not part of the core strategy of the sub-fund, the Investment Manager of the sub-fund may invest up to 10% in equities and other securities giving or capable of giving, directly or indirectly, access to capital or voting rights, traded on international markets.

**Debt securities:** The sub-fund will be invested, without any restriction, to the full extent and within the limits permitted by the 2010 Law, directly or indirectly in debt securities, i.e. fixed rate bonds, transferable debt securities, treasury bills, variable rate bonds, convertible bonds and inflation-linked bonds, including a variable portion of investments in the emerging countries. The intention of the Investment Manager is to invest in global international fixed income market and mainly in developed markets. However, he may invest an important part of the portfolio in Emerging bonds Markets in certain circumstances without any limit. He may also invest an important part of the portfolio in high yield holdings in certain circumstances, without any limit of exposure. High yield holdings exposure will be of high quality and high market capitalisation. The sub-fund may be invested in contingent convertible bonds and in other hybrid bonds either in financial or non financial sectors. The Investment Manager of the sub-fund may not invest more than 20% in contingent convertible bonds and other hybrid bonds either in financial or non financial sectors.

**Market:** The sub-fund may invest an important proportion of its assets in China market. It will do so via Bond Connect and will invest exclusively in offshore market.

**Commodities:** The sub-fund may also invest in eligible instrument in order to capture trends in the commodity market. The sub-fund may invest up to 5% of the net assets into eligible instrument whose underlying exposure is related to the commodity markets. This will be implemented exclusively through eligible exchange traded commodity securities. These eligible exchange traded commodities securities are structured like a zero coupon note tracking a commodity index. No physical delivery must be considered. No embedded derivatives should be linked to that note.

**Currencies:** The sub-fund may hold cash on an ancillary basis up to 20% of its net assets. This limit can be temporarily breached for a period of time strictly necessary when, because of exceptionally unfavourable market conditions, circumstances so require and where such breach is justified having regard to the interests of the investors.

**Investment Funds:** The sub-fund may invest up to 10% of its net assets in shares or units of UCITS or other UCIs. In the case of fund investments, the target fund(s) might have different investment strategies or restrictions.

As an international debt strategy, the sub-fund aims to create positive real performance over a period exceeding three years. There is no stated benchmark and the UCITS is actively managed.

The sub-fund integrates sustainability risks into its investment decisions and considers environmental or social within the meaning of the SFDR in its investment decisions. The sub-fund promotes environmental or social characteristics and will not make any sustainable investments. However, the sub-fund does not have as its objective sustainable investment. Therefore, the sub-fund is classified as falling within the scope of Article 8 of the SFDR.

This sub-fund is suitable for an investment horizon of over 3 (three) years.

This is a capitalization share class.

Investments may be redeemed on a daily frequency on request.

### Risk and Reward Profile

Potentially lower reward ← Potentially higher reward  
Lower risk Higher risk

This scale of risk level embodies the annual historical volatility of the UCITS over a 5-year (back tested) period. Its objective is to help investors understand the uncertainty related to gains and losses that may have an impact on their investment.

Historical data used to calculate this risk level may not be a reliable indication of the future risk profile of the share class of the sub-fund within the UCITS PCFS.

The risk category shown is not guaranteed and may shift over time.

Risk level 1 does not mean that the investment is risk-free.

Diversified exposure to credit risk, commodity risk and liquidity risk explains the share class' classification in this category.

The sub-fund's capital is not guaranteed.

**Risks to which the sub-fund may be exposed to but that are not adequately captured by scale of risk level are as follows:**

- **Credit risk:** the sub-fund is invested in securities whose credit rating may deteriorate. Such an event would increase the risk an issuer may not be able to meet its commitments. If an issuer's creditworthiness declines, the value of the bonds or derivatives linked to this issuer may fall.
- **Liquidity risk:** the sub-fund invests in markets that may be affected by a decrease in liquidity. These market conditions may have an impact on the prices at which the manager buys and sells positions.
- **Counterparty risk:** the sub-fund may suffer losses if a counterparty defaults and is unable to meet its obligations, especially in the case of derivatives traded OTC.
- **Discretionary management risk:** as the management strategy is based on expected changes in the various markets, there is a risk that the sub-fund might not be invested in the best-performing markets at all times.
- **Operational risk:** it represents the risk of fault or an error within the different actors implicated in the management, evaluation and/or safekeeping of the assets of the sub-fund.
- **Risk impact of financial techniques:** the use of complex products such as derivatives and structured products can lead to an amplification of the movements of the securities of the sub-fund.

**For more information on risks, please refer to the prospectus of the UCITS PCFS.**
